

VETENOR

Ventanas Técnicas del Noroeste S.L.

Open the **window**, we convey the **light** to your home

About us

VETENOR is a young and dynamic company having customer satisfaction, by offering the highest quality and efficiency in its services, as its main aim.

We specialise in all kinds of top range services, K mmerling PVC, aluminium and glass; together with by-products such as doors, windows, fittings and a great variety of other products.

Premises

VETENOR is located in the Principality of Asturias Industrial Estate (Polígono Empresarial del Principado de Asturias), Avilés (Asturias).

We have modern installations in a 1,800 m² industrial plant with a 400 m² outdoor patio, affording us great manufacturing and storage capacity for all our work.

Products

KÖMMERLING PVC

The secret to manufacture the best profiles lies in carefully selecting the raw materials for preparation of PVC, using the latest technology and the precision tools used.

But Kömmerling does more, with its control department cutting profile samples at regular intervals during the extrusion process to check that their properties comply with the highest standards.

ALUMINIUM

Cortizo is a company specialising in aluminium carpentry, curtain wall and ventilated façade systems. It sells aluminium sections, accessories and machinery for aluminium.

Cortizo offers top quality products, personalised customer care and advice by means of our technical office, together with the development of customised products and the distribution of materials throughout the Iberian Peninsula.

FITTINGS

The Winkhaus Group is centred on two business activities: windows and doors.

Windows

- Tilt and turn fittings
- Rotating fittings
- Sliding fittings
- Remote controlled fittings
- Window and façade surveillance

Doors

- STV external door locks
- Safety cylinders
- Access control and time management

Work

VETENOR distributes and installs its products throughout Spain, concentrating part of its production in the north.

We manufacture our products adapting them to any requirement.

VETENOR can be found in newly constructed buildings and also carries out refurbishments for individuals, installing of all its windows.

At **VETENOR** we adapt to both rural/classic styles
and to extremely modern avant-garde buildings
